

6/12/71

Dear Crest,

Not too long ago I wrote and said I now had copies of withheld Commission records indicating that Liebeler and the FBI had greater than ordinary interest in you. Here are copies of those documents and you can see for yourself.

After you study them, if you have any questions, ask me. If I can answer them, of course, I will.

Now, it is not unusual for lawyers to prepare for questioning witnesses. However, for years I have been trying to get the records of these advance preparations, and it is the official story that there are none, that they do not exist. In your case in particular there were none. Or so it was said.

A trusted friend of mine found these outside the regular files.

Some of these things Liebeler did not go into. In some cases, I have supplied you with copies of the FBI documents he had in mind. One, for example, is the Garcia thing.

The only things added to these documents are the numbers on the bottom, #2XX.60 and #461.10, which were added by my friend for his own purposes. Except for the mark under "12", I think all the others are due to the xeroxing.

Best regards,

Sincerely,

PH- The problem now is to get him to communicate. Something has turned him on again. Had I had the money several months ago, he wanted to tell me things, and they are consistent with beliefs we share. He told me enough over the phone but feared telling me more. I tried to persuade him to stop over in Baltimore on his return to NO but my letter did not reach him and was returned by the hotel. I sent it to him as evidence of what I had wanted to do, what was within my capability. Unless and until I can get down there, my only hope is that he will use a tape recorded he long ago got so he could communicate with me that way. I have asked this of him. He is hesitant in English, in typing or writing. And I know no Spanish. In any event, this is where it now stands.
