2 copies of [redacted] (except what was [redacted] earlier) enclosed [redacted] on [redacted] Pena.  
Very interesting indeed. Could you ask for [redacted] photo from [redacted] papers, mentioned on p. 5? At least the caption, to see who else is pictured.  
This may not mean it wasn't done, but I don't recall such treatment for other witnesses (except Rowland). Liebeler may have asked for this memo. A check of the name file for Pena may be worthwhile.
