Dear Harold,

Well, not much has happened since we last corresponded. There has not been much activity coming out of New Orleans. I have a claims adjusting office located in Metairie. The branch manager watches the papers and keeps me informed. He claims he hasn't had much to do. I am including an update of newspaper and magazine clippings from various publications. Some you may already have. If they are duplicates you can pitch them. I did get a copy of the Times-Picayune article in the May 24th "LAGNIAPPE". However, my New Orleans connection forgot to include page 22. Gary is trying or already has a copy, so when I get it from him I will forward along to you.

I got
it from
Gary, it's
attached

Last Wednesday I got another 10:30 p.m. phone call from Mary LaFontaine of Desperado Productions. She claims to have proof that it is Roscoe White in the Marckx photo. Yep, and pigs fly. Also for your listening enjoyment:

- o There was no U-2 base at Atsugi.
- o White's military records are a forgery.
- o Epstein's book "Legend" is probably a fake.
- o Powers was not shot down. "Nobody can get out of a U-2 without help."
- o Powers left from Turkey. And stupid old me. I thought he left from Peshawar!

For some reason, these calls lead me to believe Mary is still working on the White story. I also think she may have some relationship to Matsu. I mentioned that while I was roaming around on the set, I noticed them filming a policeman firing from the acoustic position. (Probably White) She felt this "very interesting".

I also have the feeling the JFK Center is on its last legs. Gary and I have a small wager on how long it remains alive.

Best wishes,

A handwritten signature in cursive script that reads "Dave".

Dave

P.S. Do you know anybody I can get in touch with that has a copy of the script? I would like to start on the rebuttal a.s.a.p.

Also, is "Oswald In New Orleans" out of print?
