9/17/91

Dear Dave,

Thanks for your 9/11 and the enclosures.

I guess this expanded gathering is made possible by some of Oliver Stone's money.
It can help promote his film.

The Extended Rashomon is funny. Did you do it?

We do not have cable, look at so little TV we rarely look at the programs and never cable's, so I didn't know that Nigel Turner has expanded what he erred in his earlier expansion. Thanks for letting me know. I think a friend may be able to tape it. I can't.

I do not recall ever hearing about one Chauncey Holt and he cannot be one of the "tramps" because none of them were tramps. That is what Sprague and then Garrison invented. He did not have and could not have had any connection with the assassination.

You ask why those Nuts down there get nuttier, "why do they keep this stuff up."

One possible explanation is that there is nothing else exciting in their lives.

They can't possibly be so stupid they can't see that the Rickey White story was made up, if they were stupid enough to go for it without the most rudimentary checking. So maybe they get some kind of kicks from it.

On the other extreme, what they do serves the interest of the miscreants in government whatever these fools think.

This does not mean they are agents.

But it does mean they serve the same purposes.

Thanks and best,

Harold
