Dear Dave,

Gus Russo phoned me last week to tell me that among the Dallas police documents recently disclosed is information relating to those Garrison and Stone, among others, refer to as "the tramps." Gus said that the men were in fact identified, held for three days and then released. Incomplete as this information is, it interests me much.

Gus said that Mary and you are doing most of the work on those records.

I suppose that alone is keeping you all busy.

From the time the finding and release of these records was in the papers I've been hoping to hear from someone that copies can be provided.

I hope one of you can find the time because I'd like them as soon as possible so I can also go over them and see if I can recall any relevant records or information I have.

In turn, I can make copies available to others and save you (pl) that time and work.

I'll also appreciate copies of any news stories and notes on the records.

Of course I'll be glad to pay the costs.

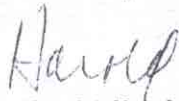

I've also heard nothing about the week of KXAS-TV shows.

I hope they were good and well received and that there was a good reaction to them.

Is it possible that they contributed to this disclosure or that the attention to the Stone movie did?

Or was their finding a mere accident?

Thanks and best to you all,

Harold Weisberg
