Dear Dave,

Thanks for your 9/18 and the enclosure, Joe West's crappy suit to exhume JFK's body.

If we discuss this again I'll file it under his name, where I have a few other crummy things.

I agree with you that he had to have had help. Not only on the subject/matter, on the law, too.

It will get him ~~nowhere~~ nowhere. Which is what should happen.

All of this scrimshaw is by those who are not informed about the known fact of the assassination or are ignorant of it.

There is no need to exhume the body in the futile hope of obtaining the information he says he wants. If he were not so ignorant he would know he does not have to sue for it. It already exists.

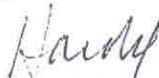

But all this insane theorizing buries the available fact and turns off all in the media and politics who might be willing to try to be helpful.

If the medical examiner has defaulted it still will do West no good at all.

While I deplore it I'm glad to be informed about the wild, the ignorant, the stupid, the self-seeking and the nuts in general.

Thanks and our best to you both,

sincerely,

Arnold Weisberg
