Hal---

I heartily agree that it would be most desirable to learn if contents of Dorothy's luggage was inventoried.

One has to be careful of coroner's office, however. (See enclosed.) Might be best to try security for United Air Lines (which I'll try).

By the way, the poop sheet on Kyeen Phelan ~~was~~ (now ~~was~~ chief deputy for Cook County coroner) dates back to early 1960 ... and was written by Richard Scully ~~was~~ Cain, aka Scalzetti and Scalzitti. Cain was chief investigator for ~~then~~ Sheriff later governor ~~of~~ Ogilvie, was chauffeur for Momo Giancana in Mexico, completed ~~his~~ federal term for working with outfit bank robbery gang. Just the type for CIA.

Best,
