TO : SAC (89-43)

DATE: November 24, 1963

FROM : SA MALON L. JENNINGS

SUBJECT: ASSASSINATION OF  
PRESIDENT JOHN F. KENNEDY,  
11/22/63

The following investigation was conducted by  
SA MALON L. JENNINGS, SA B. TOM CARTER, and SA ROBLEY D.

AT FORT WORTH, TEXAS

On 11/23/63, JAMES A. BYRON, News Director,  
WBAP-TV, made available for review TV movie film shot  
by his employees and NBC photographers on or about the  
time of the KENNEDY assassination in Dallas, Texas, on  
11/22/63.

A review of the film did not disclose any  
pictures of the building where President KENNEDY was  
allegedly shot from until this particular act had been  
committed. After President KENNEDY was shot, the film  
did contain several frames of the building which are  
of no particular significance at this time. With  
regard to people running from the building or people  
possibly seen in the building as alleged by persons  
viewing this film on television when first shown by  
NBC, Mr. BYRON pointed out that this film was first  
run without being edited and, of course, the sequence  
might indicate to viewers that the building scene was  
taken at the time of the assassination, which is not  
true.

Mr. BYRON advised that NBC photographers'  
film and the station's own photographers' films were  
run together as one since this is an NBC station. He  
pointed out that the NBC photographer shooting film  
shortly after the shooting of the President was DAVE  
WEIGMAN. WEIGMAN was riding in a car approximately  
five cars back of the President. He apparently heard  
the shooting, jumped out of his car, and with his

movie camera shooting film ran up to the vicinity of the President's car. During this period there are shown what appears to be people running from buildings, but the building in question here was one block away and not included on this film which was taken by WEIGMAN. Further, people are shown running or lying on the ground because of the shooting, and some of this is shown on the film taken by WEIGMAN.

Mr. BYRON advised that should any film come to his attention which would possibly aid the FBI in this case, he would immediately notify the FBI, extend his fullest cooperation, and make any film available for FBI use.
