To the Big V Republic  
Systems of Government and Their  
Five Legislative Bodies — Gentlemen:

The "Newest, Best, and Only Permanent" way to "Stop World Wars" and the "Destructive Forces Forever" is by an International Constitution" made exclusively by said Big 5 Republics that are now, for the Second Time in last Quarter of Century, at terrible human sacrifices and time and expense, actual whipping these Destructive Forces today!

Shall Big 5 sit down again for another decade, with "Peace Treaties" signed by the loser of World War II? Or would it be "Sounder Sense" to let Big Five Systems of Republic, make an "International Constitution by their Legislative Bodies?" It is self evident now that "Treaties" are N. G. They are too readily broken by any "Agressive Nation."

This "International Constitution" is made Exclusively for United Nations of the World, for "One Century" as its only Constitution. It can be written in Paragraphs, as shown on Page 24, Book 5, "Birth of United Nations," but should have 100 Paragraphs.

This "International Constitution" can be annuled by each Paragraph by a three-fifths majority of the "Legislative Bodies" of Big Five Republics, only in such Calendar Years that end in 0 or 5 figures! U. S. A.'s Constitution has stood up well. Let's hope U. N. W.'s Constitution shall stand up longer.

This wonderful International Constitution gives United Nations an "Opportunity" to have Fifty or more States all over this Universe, and also to Control the now here "Great Airplane World", and make "International Laws, for its states, money mints for its New World Money World, all over this Universe, bring under Control all World Wars and Destructive Forces.
