15 in JFK plot, Rome paper says

ROME (UPI) — The Rome Newspaper Il Messaggero said Tuesday the assassination of President John F. Kennedy was the work of 15 Cubans and Americans who felt he betrayed the anti-Castro cause by pledging not to invade Cuba.

Lucio Manisco, the newspaper's longtime New York
correspondent, said he found
evidence in favor of this theory
through "a fortuitous series of
circumstances, casual meetings in the United States and
abroad and a more careful examination of documents not attached to the (Warren) report." He said sme of his
information was second-hand.

He said the New York
Times, Washington Post and
Los Angeles Times were workning on the same story and that
Mr. Sen. Frank Church (D-Idaho)
Mr. may ask the White House to
Mr. reopen the inquest.

MANISCO said this version orginated with Lawrence (Laracty)" Truckman, an "American adventurer" who was arrested in Manila in 1972 in connection with an assassination plot against President Ferdinand E. Marcos.

Manisco said Truckman was sadministered "truth serum" and under its effect told Filipino investigators of his role in the Kennedy assassination mine years earlier.

He said Kennedy was "the victim of a plot by 15 Cuban and American mercenaries, enlisted two years earlier by the Central Intelligence Agen-

cy for the abortive Bay of Pigs invasion."

The assassination was prompted by reports that Kennedy pledged to refrain from further invasion of Cuba in return for the withdrawal of Soviet missiles from the Island, Manisco said. He said the group saw this as betrayal of the anti-Castro cause.
