Dear Mr. Weisberg,

Yesterday, I purchased a copy of your book "Case Open". Today I finished it and wish to commend you for your excellent work. I too did not care for Mr. Posners "Case Closed". Although I am a newcomer to the study of our dear beloved President Kennedys assassination, it did not take me long to see that it was nothing more than a money making scheme. How convenient for Mr. Posner to have it released near the thirtieth anniversary of the Presidents death when it can generate so much more attention. Thank you so very much.

Since I am a newcomer, I have not had the honor to yet read your other books on this great subject. But I have heard many wonderful remarks from other authors and friends who are also interested in this subject. Therefore, I would very much be interested in purchasing one copy of each of your other books pertaining to the Kennedy assassination. Please send a price list to me at the following address:

Thank you very much.

Sincerely,
