Dear Jerry,

The other side is to an Ohio history teacher friend. He'll get in touch with others, I'm sure. And I'll write a couple.

This can become the publishing story of the year. Or several years. As it should have when Case Open appeared. You should see the indictment of Posner in what was cut out to make a smaller and cheaper book, I suppose.

I'm told he did not make any effort to refute what I wrote in Case Open, merely said I was "vindictive" and things like that in his intro to the paperback.

Anyone who does the story should ask to see that boasted-of index to the 26 columns, of an estimated 10,000,000 words, the Archives told me. *Big lie but it means he knows their content that I have in Case Open*
I'll enclose a few things to show the kinds of sources I used in Case Open.

The mere fact that Oswald had a Crypto security clearance and that did not come out in the official evidence ought make a real story. After what I published in Oswald in New Orleans on that I got official Navy confirmation, *not from any Oswald file.* ^{in assassination} It claimed to have none. I have more on this.

Posner lied about not having read O in NO. It was the one of my books he did have when he was here and bought the others. He used it in his one factual criticism of me. And he is very wrong. I'll enclose this.

Aside from what was used in Case Open there are three witnesses to his admitting he knew it was not Case Closed but he used that as a provocative title to sell books.

He was not exposed as a liar in saying he had not read O in NO because his mother was present. But he did read Post Mortem and in it I brought to light from FBI records that the KGB suspected Oswald was a US sleeper agent or agent in place and that he was openly anti-USSR within the USSR. These records, to which Posner had unrestricted access, as he acknowledges, show that even with a shotgun when Oswald went hunting in the USSR he never hit a thing and his companions gave him game to take home to eat.

Posner used Whitewash, misused it. I enclose the official marines rating of him as a "rather poor shot" in facsimile in it. Perhaps more. Want to write others, thanks.

Agel
