

Footnote (in epilogue[?]) to where Posner is quoted as saying that the rest of us have wasted our time for 30 years:

(He said this to Kathy Rose. New York Times Sunday book review 11/21/93)

Of America through the facts of Rogers' life

...His meteoric rise from Indian cowboy — he was one quarter Cherokee — to the national figure eulogized on the floor of the U.S. Senate at his death, makes for a fascinating story land! Ben Yagoda tells it right!"
—ANDREI CODRESCU, Philadelphia Inquirer

"An engaging biography ...fascinating and revealing"

—JAMES GOODMAN, Boston Globe

Higher Reading

Sometimes you read heavy hardbacks, sometimes little paperback. Sometimes you read magazines, sometimes newspapers. And sometimes you need to hold copy next to your computer. That's why we invented our new telescoping oak bookstand. The back elevates from 7 1/2" to 11 1/2" high. Move the ball-topped wooden pegs on the base to different holes to adjust the reading angle and keep the pages back. The base measures 5 1/2" by 14". Made in America of native oak.

ways outweigh the man accused of committing it. No one can ever establish beyond a reasonable doubt that however weird Oswald was, he wasn't actually doing someone else's bidding when he carried the paper parcel containing his rifle to the sixth floor of the Book Depository, or that something other than personal demons didn't drive Ruby

Still an Unthinkable Thought

When Gerald Posner decided to write a book about the assassination of John F. Kennedy, he wanted to identify the issues that were still outstanding almost 30 years later. "The biggest story here would have been to come up with incontrovertible evidence of a conspiracy," he said. "I applied the same standards of evidence to both sides." It was only after Mr. Posner, who once was a Wall Street lawyer, spent close to 16 months combing the written record and then conducted some 200 interviews that he was convinced he "could reach a conclusion" — that Lee Harvey Oswald acted alone.

That is why Mr. Posner was so surprised at the reaction to "Case Closed." In the two months since it was published, he has had letters accusing him of being a C.I.A. agent or of taking on the Federal payroll. Someone has taken the trouble to find out his interview schedule and to fax belittling letters to radio stations. A computer network has asked members to try to discredit the book. In Boston, a group of demonstrators gathered in front of his hotel with signs saying "Case Still Open — Posner's a Dupe."

He also has been surprised by the telephone calls in the middle of the night. Some have

the passing years over those first told when details were fresh, labeling the safely dead. Shame is out of fashion these days, but perhaps it's not too much to hope that one or two of the authors Mr. Posner exposes — along with the editors and publishers who have profited from peddling their irresponsible wares — might suffer at least a momentary pang of embarrassment.

American authorities in solitary confinement for two and a half years after he defected. But most unsettling have been the efforts to discredit him. "Perhaps my title is fighting words," he said. "It tells people who spent 20 or 30 years on the case that they wasted their lives."

Mr. Posner pondered the national obsession with the assassination. "This is viewed as the great unsolved murder mystery of the generation," he said. "It is hard for many to swallow the notion that a misguided loser with a \$12 rifle could end Camelot."
