Dear Dave,

From you and another today I got Posner's pages referring to me. I do not want to take time now for point-by-point comment on them and I suggest that you and others should be able to spot his permeating dishonesty about me. For example, his text credits me with 6 JFK assassination book, his biblio. omits 0 in NO, yet that uncredited, unidentified, rather book is the source of his gross misrepresentations about me ad those addresses. Only in that book. There are other obvious reasons he has I do not want to take time for now because it is hard enough to find time for writing.

In general, and you can quote me on this is you'd like, Posner's references to my work range from simply, deliberate distortion to false and misleading. In between he expresses childish pique because he demands that my book on the Warren Commission should have seen as important what he has on Oswald as a childish bad boy.

Anyone familiar with my work need only read what Posner says to represent it and decide for himself whether Posner represents it at all. Ought it not be asked why?

I've read <sup>some</sup> ~~so~~ wretchedly dishonest books on the JFK assassination but Posner's is ~~is~~ in a class by itself. It is, without question, the most professionally, intendedly, indecently dishonest of them all.

Re:Ray's lawyer telling him interviews are not in his best interest, I told him that years ago, explaining why, and he went ahead and by tying in with exploited and commercializers made his already bad situation much worse.

Thanks and best wishes,

Harold

Dear Mr. Weisberg:

I have enclosed every reference to you and your work from Posner's recently published work "Case Closed." Since I am writing a review for either "Third Decade" or "The Investigator" on it, I would appreciate any comments you would have on the enclosed, specific or general. I have enclosed a 29-cent stamp for your convenience.

American history text publishers have been responsive in sending me the latest copies of their high school texts for my research they collectively and individually handle the subject of the JFK assassination and the potentially related issues (Bay of Pigs, Vietnam, etc.).

James Earl Ray responded to my second letter to him requesting an interview in Nashville in November when I am at the National Council for the Social Studies Annual Meeting for my two-hour workshop presentation on JFK and the assassination. In a short, typed note on my letter, he said, to paraphrase, his lawyer informs him that random interviews are not in his best legal interests. I got the impression that he has ongoing hopes for release.

The two or three copies of your reprint under different title of "Frame-up" has sold out finally at my local bookstore. I am not sure whether they will restock or not. I am eagerly awaiting the release of your first new book and hope you are making good progress on the second. I am fighting off a cold right now and trying to get into the school year again. As always, best wishes,
