Dear Mary,

I'm doing some checking on Posner's book and will appreciate any information you may be able to let me have.

I write about one thing in particular, his cited sources <sup>fn</sup> his account of that nice little girl, Marilyn Willis, as she proves that the first shot was fired from the TSED <sup>at 2:16</sup> by what he says he had to enhance the Zapruder film to see, her looking at the TSED at Frame 179 in the Zapruder film.

I know more than enough about Jim Moore. He wrote me when he was in high school that he would not take his senior year so he could enter college a year earlier and that would allow him to graduate college in an election year, when he would run for President of the United States.

I know that David Lui was an eminent scholar, according to David Lui, who was a teen-age assassination expert in what Posner cites.

But Posner, as he does not infrequently, makes it impossible to check on his third source on that new revolutionary "proof" of his, Marcia Smith-Durkin. If you know anything about her or whether she was published, I'd like to know. *On line copy of it.*

I do not, based on Lui, believe that Posner snatched her from her mother's table when the mother was changing her diapers.

Hope all is going as well for all of you as it can,

and thanks,

*Harold*
