

ONE MAN. ONE GUN. ONE INESCAPABLE CONCLUSION.

# CASE CLOSED

BY GERALD POSNER

### Revealed:

- New information from Oswald's still-classified KGB file — and an exclusive interview with the agent assigned to him after he defected to the Soviet Union
- Indisputable evidence from new computer enhancements of the Zapruder film, of how many shots were fired and at precisely what time
- Conclusive ballistics and medical proof of the "single bullet" theory
- New facts showing why the multitude of conspiracy theories are false or unsupported by credible evidence
- An unsettling look at how the FBI and the CIA compromised the Warren Commission Report by withholding vital information

**Three decades after the assassination of John F. Kennedy, a brilliant, overwhelming book provides closure to the tragedy no one can forget.**

Here is the true and complete story. Breaking new factual and psychological ground, a stunning new portrait of Lee Harvey Oswald emerges — stripped of media-speak; delivering an emotional reality never before glimpsed by the American people. A work of monumental research, meticulous synthesis, and inescapable conclusion, *Case Closed* resolves America's most painful mystery.

"Brilliant and meticulous...With the skill of a good novelist, but a novelist possessed of the facts, Posner follows Oswald's tormented movements. *Case Closed* has helped lay to rest one of the great cultural and political scandals of our time." — WILLIAM STYRON

"This case has indeed been closed by Mr. Posner's work...His chapter on the single bullet is a *tour de force*, absolutely brilliant, absolutely convincing." — STEPHEN E. AMBROSE

"Brilliantly researched, utterly convincing and compelling. At last, the voice of sanity...a long-awaited, much-needed antidote to the conspiracy theorists. If you read only one book on the assassination, let it be this." — DAVID WISE
