Richard Harrell, if Glendale, NY phoned me after reading <u>Gase Open. He</u> told me that the Zapruder film actually shows that Rosemary Willis did not look up that that supposed ssicth-gloor snicer's nest and that instead she looked at the grassy knoll. ^me sent me his copy of what Lifton sold as a research toolm made from the clear copy of the film he had and had sous succeded in stealing to years earlier. Lifton use sections, selections and enlargements for his own purposes. ^{Ho} sound track. The girl is seen clearly running along with the car while she is on the south side of ^HIm Street. Lifton's use of her stops when she stopped. She did not look up andthis version does not show what she did after she stopped except that a frame or so seems to indicate that she hurned her head toward the west or hotthwest. But she did not turn toward the sound of the shot. It was **NEKELEXELS** Jerry McJnight's belief that she turned in response to her father's call. I think that is the best **EXEP** explanation we can reasonably make. Howewer it is interpreted the one thing that is clear, eside from the fact that no kind of enhancement was necessary to be able to see this, is that as usual Posner just made it uc and as wrong.
