October 31, 1966

Professor Wesley J. Liebeler University of California at Los Angeles Law School UCLA Los Angeles, California

Dear Professor:

We are extremely interested in your proposed book analyzing the Warren Commission's work and the criticisms by Lane and Epstein.

We have long been engaged in gathering all books, magazines and Kennedy Memorabilia in a collection that is now probably exceeded only by that of the JFK library in Cambridge. We have offered our collection to Yale University's Rare Book Division.

We believe you are missing an important area in not including in your work the first and doubtless most important of the three major critiques - "WHITEWASH" by Harold Weisberg. He is now preparing a second book making specific accurations against those who are guilty of the "whitewash".

We have met this author and are convinced that his integrity and ability ranks with and above the other two authors you are answering.

Have you seen or heard the TV and radio appearances of Mr. Weisberg challenging able anorneys and famous TV personalities ? He would be your ideal adversary in such an appearance. Mr. Weisberg will be appearing an NBC television program on November 12, 1966 from \$ to 12 midnight. The name of the program will be "A Re-examination of the Warren Commission's Findings: A Minority Report". Appearing with Mr. Weisberg will be Jim Bishop, Mark Lane, Leo Sauvage, Penn Jones and Jacob Cohen. We hope you can find time in your busy schedule to watch this program.

Very truly yours,

Pennsylvania General Paper Corp.
