

11/18/67

Dear Arthur,

Many thanks for the valuable research assistance. I'll try and read them either tonight or early in the a.m. This has been a busy day and it is still going at bedtime. I've got the schedule on the New Orleans book, rather later for maximum chance of arranging appearances.

Publication date is November 1. I'll be in New York sometime 10/30 and if I have a free moment I'll call you then or the next day. I'll be able to get a message at Parallax Press, 421-8050. They are publishers (under their Canyon label, presumably because they are denied their regular distribution on this subject). They do not now have any copies, not even enough for the press. But I'm told mine are on the way by truck and as soon as I get them you will.

We have an index to it, not printed. If the book is reprinted, it will have the index. If it is not, you can Xerox a copy. Ditto for WHITWASH II. It will make your material more useable in the future.

I have been in touch with Dr. Nichols, who first wrote me about six weeks-two months ago. He is flabbergasted that I have given him access to all my materials, including those things he has been officially assured do not exist. I have a prize for your collection -what doesn't exist! I have this and a few other things that were suppressed simply because it was misfiled! Thus I have a copy that could not be located when the files were purged. This book is of another really great scandal. Wait until you read it. And I have 100% of the documents quoted, more than I can use.

Until I get to New York when, hopefully we can have a relaxed meeting, I repeat that the immediate help I need is backstopping on publication, for the effort to suppress is greater than ever and I will not cross the line where I can be involuntarily bankrupted. My worth now is greater than my debts. I'll keep it that way. I must. It would cripple me to do otherwise.

I'll also be going off on a speaking tour, the details of which are not yet firm. Now anybody in San Francisco, Los Angeles or Chicago who has an organization that would like to have a speaker on this subject?

Many thanks. Looking forward to seeing you again.

Sincerely,

Harold Weisberg

Dear Harold,

For your new book "POST MORTEM", no doubt you will dwell at length upon the now admitted omission in the official Autopsy and Supplementary Report of J. F. K.'s adrenals. They clearly showed he had long had Addison's Disease - denied all along.

My capable secretary has followed up the first reports of the medical "Detective Story" this summer. She has received the articles enclosed herewith. No one has published these together - and certainly not in a non-medical magazine.

You are welcome to these - as to all else in our J. F. K. Collection.

Now let's get together soon - especially as to how we can be of help to you now.

Sincerely,

Arthur Price
