

12/11/71

Dear Dad,

Re; The Process, 1205 Royal St., N.O.: when I was there I regarded the most likely useful sources as Barbara Reid and Bob Head and/or Darlene Life. Both seem to have been swallowed up. Nobody was at Barbara's, which seemed empty. Her phone was answered by a not-in-service disconnect. I went to the Ursuline St address when Bob and Darlene had lived and found a night spot there now. No phone listed in either name. But the NOLA Express was being sold, still, in the streets of the Quarter. Only, none of the vendors admitted knowing where Bob and Darlene live now. The phone had been in her name.

In the Walter letter to you, Blavatsky Foundation, I agree that the dilated pupils are a sign of drug usage and not likely anything else. In 1968 I inquired of the N.O. federal Marcos about a drug that would dilate the pupils and would make the person sensitive, not insensitive, to light. I got no meaningful answer. However, an inquiry in DC from unofficial, if not official, sources, might give a clue to light-desensitizing drugs. One such might be Colonel Hassan or his outfit; another George Allen who has investigated for WTOP News. And there are always the local and federal Marcos. If I had known this when in MO I could have learned from the local Marcos.

I understand Kaiser feels he now knows who was programming Sirhan. What is the name?

I know you considered John Christian for your board. I urge caution with regard to him. My own experiences, some of which you should have recalled, are too painful not to. All the SF critics had doubts about him.

If The Process has any kind of symbol, I'd like to know. Such people might use it as the device for hypnosis. See The Billiken Courier and the Copenhagen case.

Sander Vanocur is not with Educational TV in Washington. What Austley has long since retired to Montana.

Bob Dorman was more than merely a devout Catholic at KBJ-TV. He was pretty far to the right.

Ray told me he learned of Von Koss in an ad, probably in the LA Times. He said he usually saw it. We also know he saw the Freep.
