Dear Felch,

Thanks for your flattering and informative letter of the 4th.

I'm in the middle of something else I've taken from the typewriter to
ask you about one thing of which you reminded me. I'll write you more later,
after I finish what I can't do as rapidly as I once could.

You refer to the Indonesian operations. I think you refer to one - I've
left your letter, which I've just read, for a while to read - and I think there
were two, close together.

Do you remember their code names and the names of any of the carriers
involved in them?

I'd like very much to know.

Thanks and best wishes,
