Dear Dr. Quinn,

I enclose the list of our books, with the local postage charge removed. The best guess I can make for surface postage to ~~us~~^{you} is \$9.52 for them all. Please remit in US funds, which most banks can do, because otherwise here in the country we must pay two additional charges in the conversion.

You ask for assistance in your research. I hope you will believe that I am serious when I say do not believe any book that pretends to solve the crime or is based on any theory. Theorizing is fine but not when presented as proven fact, which is what all I am familiar with do one way or another.

The crime itself was never officially investigated. There thus were no real leads to be followed by private persons.

Most of the authors have no real knowledge of the established information and there is quite a bit, some which has negative values, and not one has kept up with the many pages of once secret records that others and I have brought to ~~the~~^{the} light. I make about a quarter of a million JFK pages, about 80,000 on King, accessible to all writing in the field and not one has made any real use of them. They don't care about the fact. They are all new Sherlock Holmeses, they think, and need no fact.

Nor has a single one ever asked me if I know of anything that disproves his theory.

Some are rather cunningly ~~do~~^{do} but they will all mislead you.

Sincerely,

Harold Weisberg

Dear Mr Weisberg

I am a lecturer at a local college and have recently begun research into the assassination of President John F Kennedy. In my initial reading, I have come across many references to your work. Unfortunately, I seem to be unable to obtain copies of these in the U.K. I wonder, therefore, if you could inform me on the availability of your books.

I would also welcome the opportunity to make use of your expertise in this area, if you would be kind enough to assist me with my research.

I look forward to hearing from you soon.

Yours sincerely

G.J. Quinn.
