

Quiroga, Carlo

H - 62-109060-5114 is 20 or more pages long, typical Bringuier/Quiroga crap, political paranoia, etc., and B's letter to HUAC's Willis. However, there is a masking in the covering Airtel of 4/17/67. I think the masked name is Quiroga's. On page three there is this re this masked name: "(Masked) was interviewed by Bureau Agents on 4/5/67 for the purpose of assessing him as a PSI but the interviewing Agents felt that (masked) possessed a detective complex and (masked) was not operated as a PSI at all, the file being closed following interview with (masked.)" B and Q were aware of the Garrison investigation by that date and had been in touch with FBI, I think, at least B.
