Dear Mr. Teuter,

I'm pleased when I hear that any teacher tries to teach his students the truth rather than the attractive fairy tales about the crime that I think turned our country and the world around.

I am friends with several high school history teachers and college professors who do.

The reactions I get in a fairly constant mail increasingly expresses appreciation for my not theorizing or conjecturing and sticking to fact. I am inclined to believe that the mythologies have worn their welcome out.

I am inclined to believe that the stores do not stock my books is largely ^{because of} the competition for space and because they believe that those that are advertised will give them more volume.

A few orders from us but in response to orders in hand mostly.

While my Case Open has had no advertising or promotion and was butchered in being published the reaction is excellent daily. (C+G)

A few teachers have expressed a liking for Selections from Whitewash, really from my first five books, (Carroll & Graf) because the selections were made with good judgement (not mine) and because it is a single volume.

If you can find the time and are willing I'll appreciate it if you ph one Steve Bordelon, who has probably retired from the NOPD and was on Garrison's staff, his principal driver and who was friendly with and helpful to me when I was there and ask him if he would please write me, for the record only, what happened to Garrison's records. The story I've heard attributing their disappearance to Steve I simply do not believe. If you do speak to him, please ask him to remember me to Louis Ivon and Lynn Hoisel.

If you use visuals I believe the very best of the VCR's is Selby's Reasonable Doubt. It has an additional value to students, I think. It was his master's thesis and he won the highest honor with it. Tells them what students can do.

Please excuse my typing. I'm 84 and unwell. Thanks and best wishes,

Harold Weisberg

Dear Dr. Weisberg,
 Please accept my order with check enclosed. I would deem it an honor if you would autograph same. I am an American History Teacher in the Public schools in Jefferson Parish and I teach a month long mini course on the JFK murder trying to correct the mis-information in the American history texts we use. I will put your book on reserve in our library so the students can use it to write our 10 page term paper they must do to pass the course. Most history teachers would teach the facts rather than the fairy tales in history texts as far as I know, I am the only one doing it in our section we have 58,000 students.

PRECEDENTED INVESTIGATION
BY UNPRECEDENTED MEANS -
(over the years) **UNPRECEDENTED RESULTS**

- From the moment those thundering shots fired in Dallas November 22, 1963, reverberated around the world, one man alone has dedicated his life to a full investigation of that "crime of the century" in all its frightening ramifications.
 - To this investigation of a magnitude without literary parallel. Harold Weisberg took a combination of unusual skills. He was an investigative reporter, Senate investigator and editor, OSS analyst and legal investigator.
 - He invented the "underground" book to bypass commercial publisher's fear of government on this then taboo subject, exposing the official lies by which this assassination was "solved."
- WHITEWASH: The Report on the Warren Report** made publishing history and opened the subject. Dating to February 1965, it is the first book, basic, definitive and unchallenged.
- His six books on the JFK assassination are the works that first brought to light virtually all the misrepresented and suppressed evidence. These books and his work methods break new ground in investigative reporting. When he could not rescue the evidence from official suppression, he sued the government for it, becoming the writer to make most use of the "freedom of information" law. Congress cited one of these suits as the first of four requiring amending of that law. It then overrode the veto of President Ford, former Warren Commissioner and one of those who agreed to "destroy" the record of its own guilty knowledge.
 - These remain the basic books on the JFK assassination. They also report the first and most thorough and extensive resurrection from suppression of the officially ignored evidence, reproduced in facsimile in all the books.
 - **FRAME-UP** and Weisberg's subsequent investigations laid the basis for getting the assassination of Dr. Martin Luther King, Jr., in court by providing a defense for James Earl Ray.
