3/9/95

Dear Terry,

Thanks for your 3/5 and its enclosure.

I am not familiar with Stevens work, do not get the Fourth Decade or any of the earlier ones, generally do not take time for the theorizing and am offended by the ignorance or worse those who imagine themselves Sherlock Holmes reincarnated and when I am sent copies of some of the stuff in such publications usually find them to have little or no value.

If it is not too much trouble while I'll not take the time to listen to the Davis tape I'll give it to Hood where all I have will be a permanent public archive. Some already there, what I now cannot use. As is the "eagher deposit.

Glad that Davis was finally honest. What he says about me and the man he said was the chief mafia lawyer when he was not a mafia lawyer at all in his hardback was 100% false. Davis made it up to have a peg to hang his fiction on. It was only with great effort that I got him to take it out of the reprint.

That man was never here. We never laid eyes on each other.

Davis also was never here. I got a Hood student to be his researcher. She had free access to all I have, including our copier, for I believe about six months.

I have no idea what she copied other than some only copies of my correspondence I had to keep after Davis to get some returned.

Hope you enjoy your new life!

Dear Harold,

March 5, 1995

It has been a long time since we have communicated. I retired from my college teaching position and gave my 25 years of research to the William Paterson College Library, Wayne, New Jersey. With Jan Stevens, I presented a JFK assassination seminar that enrolled over 100 people. This was in 1993. As you can see from the attached materials, we are presenting another seminar on March 11th. Cyril Wecht was originally scheduled to be one of the speakers, but he canceled. Walt Brown has done important work on Oswald and he is now working on a new index of the Warren Commission volumes. Of course you know about Robert Groden's work. Jan Stevens has done some top notch work on the many television and film studies of the JFK assassination. I hope you have read his work in "Third Decade." I am not a nuts and bolts historian on the JFK assassination. I am interested in the "big" picture, and have a special interest in how the media has handled-mis-handled the assassinations of JFK, King, Malcolm X, and RFK.

I have just completed a reading of your book, Case Open, where you present many important insights into how the media handled Posner's terrible, distorted and dishonest book. You will be pleased to know that we will devote a good deal of time at the March 11th seminar on destroying Posner, and we will be selling your book. Of course it would be ideal if you were with us on this day!!!! I recently taped an interview with John Davis and I asked him who was the most important independent researcher into the JFK assassination. He immediately replied, "Harold Weisberg." He went on to extol your work and commitment. Would you like a copy of the tape?

With these few words, I wish you well and thank you for your friendship and assistance. We may never solve this horrible crime, but we can be proud of ourselves for now allowing the "powers-that-be" to lie to the world.

JFK ASSASSINATION: IS THE CASE CLOSED?

COURSE NO.: CTED399-30 (non-credit)

DATE: Saturday, March 11, 1995

TIME: 9:30a.m.-5:00p.m.

SITE: Science Hall Room 200B

FEE: \$35.00 (includes lunch)

\$10.00 luncheon fee for WPC students (optional)

SPONSORED BY: The Department of History and The Center for Continuing Education

President John Kennedy's assassination on November 22, 1963 has generated four federal investigations and hundreds of articles, books and films. As a result of 1993 Congressional legislation mandating the release of classified materials, many documents have been released which further fuel the controversy about the assassination and the theories surrounding it. Recently, much media attention has been given to Gerald Posner's book, Case Closed, but is the case closed?

This day long seminar directed at educators, students of history and the general public will explore and discuss the new evidence and provide educational materials that can be used in social studies and history classrooms.
