Dear Nor ian Richards,
If you atop to think a moment you will realize that it is impossible for me to provide rumileg updates on three difereat FOIA cases.

Ind be doing nothing else. Including naing FOIA.
There is more in Po ot Mortem。 ${ }^{\text {in }}$ Lear has an excellent essay in Whitewash IV.
It is fine that you are taking these materials to your classes.
I cant spank for them and ${ }^{1}$ certainly am not making any promises to you but you may be able to get what you want from the University of Wiancomsin at Stevens point. Beginning $11 / 9$ there was a week of seminary and speeches there, arranged by (History) Professor David Wrome. 21y 54481.

All was videotaped. This includes a fine presentation by fin Lear on what you alk me about. He did not have a written speech that can be sent you

I know not know what the State of Wisconsin's limitations, if nay, are. I do know they regard this as educational material within the State and have had a number of request e from teachers.

It seams probable that putting it all together will take the communications school some time.

However, I know the intent is to mice everything available for educational purposes.
I therefore suggest that you write Professor Wrome. If they can make this available outside their State I do not know what deposit they require on audio or video tape.

Because you are in St. Louis and I have wo source...there I'd appreciate it if you could ave the clippings in the pager you see on the King/Ray case ard on the now House comittee. The Post-Dispatch has its own Washington Bureau and in the past has had better than average coverage from Memphis.
hope it works out for you. There in nobody- but NOBODY - who is as good on FOIA aa lear. He will tell your students more in a little time than you can accumulate from many sources.

```
Sixcerely,
```
