dear Mr. Roquemore:

- ~~and~~ The Report does not say what you report and it  
would mean nothing if it did because it is not true.

Sincerely,

Dear Mr. Wiesberg,

I did not read the 26 or so volumes of the Warren report but I have a question that you might answer for me.

Does the Warren investigation mention that when Oswald was shot, one radio reporter on national coverage said "The man who shot Oswald is Jack Ruby-the man the reporters have to see to arrange an interview with the Chief of Police. He has the run of the police station in Dallas and can get through locked doors where we can't."

If you are not able to answer me, please drop me a card so I will know that you received this letter.

very truly yours,

*Don Roquemore*
