Mr. Harold Weisberg
Rt. 12
Frederick, Md.

Dear Mr. Weisberg,

I just thought I would thank you again for the courtesy and interest you displayed during our telephone discussion today. As I stated I am very much interested in the Kennedy assassination and other political assassinations in the U.S., particularly where the government has attempted to suppress vital information from the people. With the extreme interest I have in this area I feel I could benefit greatly from your guidance and advice as to what is and is not responsible writing in this area. I would like to get headed in the right direction so as not to waste my time and efforts researching trash.

When the weather clears up I am very much looking forward to meeting you and helping you in your efforts in any way possible. I think it is very commendable the effort you put into your research and the fact that you are so willing to stand up against the Federal Gov't. for what you feel is right. So many other people don't realize that what you are doing is also benefiting them in the sense that the balance of the gov't. and the people is kept at a more acceptable level by the people voicing a strong objection against what is right and what is wrong. You are speaking for many people, myself certainly included.

I hope to get in touch with you soon as to arrange a meeting at your convenience. Once again, thank you.

Respectfully,

Douglas R. Railey
