Dear Mr. Rauh,

NBC-TV's weekend news informed me that you represent some of the victims of the CIA's mindbending experiments.

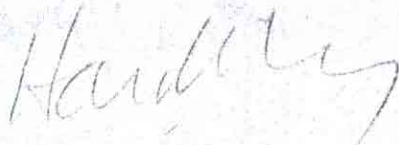

I have copies of all such records it has disclosed and if they are of any value to you, you are welcome to them.

There are thousands of pages, and I now have no need of them.

The one thing I would ask, if you want them, is that after you have no further need you send them to the branch of the University of Wisconsin where all my records are to be deposited in an archive of the Wisconsin Historical Society.

It was a terrible business. I hope you are able to help its victims.

good luck and best wishes,

addressee is Joe Rauh. I'm not telling him that I have an informed source until I see his reaction, if any. That should be a big case and if only to keep the CIA honest on discovery he ought have use for what they've disclosed.
