

Dear Jerry,

2/15/80

You overgrown baby.

I don't care whether you are serious in your letter of the 11th or whether this kind of harassment is what you consider a joke but I'm having no more of it. I've taken more time that would be justified to explain to an infant and I'm taking no more.

I found this envelope with something in it I apparently forgot to mail to you earlier.

The real Jerry Ray is not the man of all those wierd noises you make. It is the man who advertised in alonely-hearts magazine for a woman, got a reply from Magjorie Fetters, sent her maney in advance and then after he spent much more to fly all the way to Camden, N.J., only not to be smart enough to know that the FBI had made an informer out of her before he got there and not out of her alone. So when you explain this to me she was a woman you knew in Quincy. ~~XXXXX~~ Must have been Quincy, Florida, be cause she was abandoned in Camden when she got there with a man from Florida.

Real ge-man - has to pay for it and has to fly far away from where he is to get it and then g ives me baby-boy lies.

No wonder you have to make all those loud noises about yourself. It is to pep yourself up and make you believe you are something you are not.

It is good enough to be what you are and can be and be that well. But instead you go around making false pretenses and doing really stupid things that hurt the rest of your family, only to try to puff yourself up like a balloon.

If this is all there is to you I want none of it.

Sincerely,

Dear Carol, I can't put up with any more of this or waste any more time on it. I'm sorry that Jerry has these fixations. The rest of you will be well advised to be careful and alert because he blabs foolish things and has ~~strage~~ strange notions about being omnipotent. Right off the FBI spotted him as the weakest Ray and played him like you play a fish. That is the only reason they didn't lock him up, as I kept telling him, on a harboring charge. He really was blabbing his head of to them and they loved it and used it against you. Now he makes on he's smart, and ~~beaves~~ behaves the same way.
