

BILL, 1/21/95- 2 Pepper's investigator, Jimmy Johnson

He said that Oswald as a boy, in the short period he was in the institution in New York, had homosexual relations with three boys from whom he now has statements.

He says that the real Lee Harvey Oswald never shipped to Japan, that he remained in a Navy group on Mare Island, and was replaced by a lookalike. ONI group.

Says Schrand was homosexual and if he had not ~~been~~ murdered because of what he knew about Oswald, killed himself because he ^{was} homosexual. Says shotgun, which he believed incorrectly was never used on guard duty, was found 20 feet from the body. (Not my recollection of inquest that I have. He says he has autopsy report.) Says he has picture of look-alike and you can't tell the difference from the pictures, that close a likeness.

On Lloyd Jowers and the story he told about paying the King assassin off, he says that Jowers flipped out under Pepper's pressures. They have a civil suit against Jowers.

How and why Oswald was so important when he finished his training at Keesler Field he did not explain ~~not~~ that I remember did he ^{explain} what the purpose of allegedly switching a look-alike for Oswald in the Marines was.

He was unimpressed what I noted that among those with whom he served overseas with were those who took that radar training with Oswald, including three others at Keesler Field.

So, even their voices must have been sound-alike.

He referred to several he said testified to the Commission and what they said, and who I checked the list of witnesses and told him that there were none of those names, of which I remember ~~that~~ Grassi and Bowen, he was surprised.

In his version the three men behind both assassinations were Hoover, Hunt with the agency and Osborne of Hoover's special Division Five base near Nuevo south of Mexico City.
