Bill, 1/31/95- 2 Pepper's investigator, Jimey Johnson

He said that Oswald as a boy, in the short period he was in the idstitution in New York, had homose wal relations with three boys from hom he now has statements.

He says that the real Lee Harvey Cowald never shipped to Japan, that he remained in a Lavy group on ware saleund, and was replaced by a lockalike. OHI group.

Says Schrand was homesexual and if he as not museumurdered because of what he knew about Oswald, killed himself because he as homosexual. Says shotgun, which he bedieved incorrectly was never used on guard duty, was found 20 feet from the body. (Not my recollection of inquest that I have the says he has autopsy report.) Says he has picture of look-alike and you can't tell the difference from the pictures, that close a likeness.

On Lloyd Jowers and the story he told about paying the hing assassin off, he says that Jowers flipped out under Pepper's pressures. The have a civil suit against Jowers.

How and why Oswald was so import no when he finished his training at Keesler Field he did not explain now that I remember did he explain what the purpose of allegedly switching a look-alike for Oswald in the Marines was.

He was unimpressed what I noted that among those with whom he served overseas with were those who took that radar training with Oswald, including three others at reciper Field.

So, even their voices must have been sound-allike.

He referred to several he said testified to the Commis ion and what they said, and whe I checked the list of whitnes fees and told him that there were none of those named, of which I remember that Grassi and Bowen, he was surprised.

In his version the times men behind both seassinations were Moover, Bunt with the times and Osborne of Hoover's special Division Five base near Muevo south of bender "ity.
