

Memorandum of Interview of Graydon P. Tines

On September 20, 1976, I telephoned Graydon P. Tines, former Inspector, Memphis Police, and requested information regarding the source of the report of the threat on Edward Redditt's life on April 4, 1968. Mr. Tines said he knew the report came from out of town, but he does not know where it came from. He suggested that Capt. J.G. Ray or Lt. Arkin who were working in the Intelligence Division at the time should know. Mr. Tines also mentioned that Lt. Arkin put together a voluminous report covering the sanitation workers strike, the invaders and the events leading up to the assassination. He believes this report would be in the State AG's office as well as in the MPD.
