fancy!?

hello Harold + Lil -

Sorry I haven't been pestering
you two for a while. Miss the
occasional contact with good
calibers.

Anyhow, here's the NY Times opus.

If I were an expert in drama, I would
say that "The 1" appear to be ready to
deliver up a long-ago plot vs MLKING
to satisfy vox populi. Then the House
Committee could collapse like a house of
cards instead of the Warren Report.

Regards

Bob Regan

ps, don't know why this hand writing (?) starts up. The desk is level.
