Dear Barbara,

Somehow, the work load never decreases. It always piles higher. There is much I must do with what I learned this last trip, and the towering backlog of the past is undiminished.

Please, do, try and keep me posted. If you do not, no one will.

I've had two phone calls since I left. Jack participated in one. What was supposed to have been send me hasn't arrived, and he was supposed to have done it.

He is also supposee to look Bobby up, which he can, almost any night, down the street from you, get the picture he knows about that Bobby is to lend him, make two copies, sending me one and giving you one for the office. Lean on him or he'll let it slide.

He is also sending me a copy of another book entitled "The Bay of Pigs".

With the other work requiree by my recent trip, I've now cleaned up just about all the accumulated mail, which is not bad. Have a couple of more interruptions early this coming week, after which, aside from the daily intake, I'll get more done, until the end of the following week, when I'll be with a visitor.

I believe, as a layman can, that I have isolated the origin of the psychiatric problem our friend has; lack of a father and unhappiness over the surrogate and his wife, if I may put it that way, which is another way of saying the "treason" of the wife of the father. If you have anything that will contribute to my understanding, please let me have it.

I think you picked up or knew all the names involved. I'll be making a list of them, should you need or want it. Perhaps more information on some will be readily available. If so, I need.

If you hear-whatever you hear-let me know. I was to have heard of the new address as soon as it is established. What is Jack's address?

If anyone speaks to Bambi, my interest is in Bill Dalzell, everything he said or indicated about his connections, including federal (and CIA), the nature of his work as a translator (if that is really what it was), who he associated with when they were together, etc. With regard to specific names, of which there are a number, Moo can provide them. McAuliffe should have known him, for Dalzell was one of the organizers of the Friends of Democratic Cuba, which, through Radio Free Latin America, became INCA.

Kelley may just as well play at being a captain, too. My best to her, and to everyone.

Sincerely,

Harold Weisberg
