5/22/96

Dear Randy,

Jim understated when he said ^{meely} that I'm not feeling well. Recently I spent two ^w weeks in the hospital here. They removed 800 cc of fluid from my chest, not ~~from~~ ^{from} my lungs. The kidneys are not working as they should and I'm weaker than I've ever ~~been~~. I read your note, the exchange with the Journal and your letter to Reno. I enclose my letter to the Journal. I'll read ^{your} article when I rest. I'm spending every minute I can in getting on paper what I can, for history's record. by now it is voluminous.

The media is and has been so corrupt except for occasional craziness it uses to ~~deprecate~~ ^{deprecate} as all there is virtually no chance for any responsible attention outside of a competitive situation.

Perhaps this will let you understand why when your paper is not in my book I invited you to use the press conference Jim had promised to hold on the book to promote your article.

I wish I thought you have a chance for publication.

But do not give up.

- There is no way other than by trying.

Thank and best wishes,

Rand

Dear HAROLD,

JIM CESAR TOLD ME you weren't feeling well. I hope this will cheer you up abit. It may not work but at least it's worth a try. I will try to take the time to write you a longer letter when I get a chance. I think we have them cornered on this part of the medical evidence.

Best Regards,

Randey
