November 13, 1993

Dear Harold:

Please excuse the delay in responding to your last letter. I have been very busy preparing for the ASK conference in Dallas as well as before a house of Representatives subcommittee hearing about the JFK Assassination Records Collection Act. We have gotten some documents out of the Archives and I have enclosed one that you would enjoy immensely. The enclosed statement of Nathan Pool destroys completely the legitimacy, if it ever had it, of CE 399. This reveals the early dirty work of Arlen Specter. If Pool was known about in 1964 they would have nothing to use to prop up the lone gunman theory. I have called information in Dallas and there is no number for him that I know of, it would be great to really ask this guy some questions.

I believe that when we get the documents out from the HSCA investigation we will find out it was a second whitewash which was worst than the first because they ignored such tremendously damaging evidence as what I have just sent you. The medical evidence is shaping up nicely from some of the newly released documents. If we can just get these "Liftonites" isolated we might be able to make some headway. Unfortunately I think there are some physicians who are actually leaning or outright falling for his theory even as preposterous as it is. This gives his position further "legitimacy" that I don't think it deserves. It is a strange crowd in these circles.

I hope you are doing well or as well as can be expected. I appreciate your letter from before as I know you are very busy.

Sincerely,

Randy Robertson MD
