Dear Peggy,

Sorry it has taken me so long to get around to your 3/23 and that I can't give you a full response now. Something kept me busy until yesterday and yesterday I fell and while there are no indications of any serious damage to the foot of the leg with poorer circulation, I'm to baby it for a day or two and thus can't stand in front of the file cabinets in the basement to give you an estimate of the amount of records in the George file of which you have some pages, 105-632. I made them disclose that to me in a FOIA suit so supposedly I have the whole thing. I'm writing this when - have a few minutes and I'll add the rest when I can.

I have no information on Clemard Charles or Herman Kimsey, but Kimsey was of interest ~~to~~ to me when a publisher asked me to read a proposal on what eventuated as Hugh McDonald's fraudulent Appointment In Dallas. He had a lady friend who was a friend of ours but I learned nothing of any significance from her. She's in a home now, older than we. Far right lady.

It is not necessary to pay me in advance for the copying. I'll get it done in Frederick and mail it to you.

From your letter I take it that some of the 105-632 file was disclosed to the Commission, although I have no independent recollection of that. This is because the file itself had not been disclosed until I got it in the suit, over some resistance.

They even omitted it from the search slips when they made the search in that case.

Whatever other interest there may be in George, I was and remain convinced he is not of any real significance in the assassination and thus I had no special interest in him.

All the theories about him and the assassination of which I know are fairy tales

I've looked at your letter again and it certainly will cost much less to pay for copying the file than coming for it, so when I'm able instead of trying to give you an estimate of it, I'll take the file, get it copied and send it. I'll enclose the bill for the copying and you can add whatever the postage on the package is.

As you probably know, the Dutchman Oltmans had George in tow for a while. Bud may have some of that if it interest you. George flipped out overseas and fled back here.

Aside from this file, I'm sure I have nothing on him you didn't get from Bud. So I don't think it would be worthwhile to copy that file. It is part of what I call "subject" files, where in going over records I got under FOIA I made duplicates of what I thought would interest me or could interest others. I keep the disclosed files as I get them.

Best wishes,

Harold

Dear Harold,

Thank you so much for your letter of February 22.

The DeMohrenschildt FBI files that I copied at AARC were all compiled in 1964. Although a number of the files have information from interviews in the 1940s, they are "1964 retrospectives" which incorporate pieces of the interviews/data from earlier files, but the investigative dates on the reports, themselves, are all 1964.

The other day, when I was mapping out when I might be able to afford the time & the \$\$ to come down, including the rental of a car, it dawned on me that the cost that I would incur for the round-trip AMTRAK fare, meals, auto rental, etc. would probably come out to about what it would cost for a copy of your entire DeMohrenschildt file...& then I would have to incur the further expense of the copying. Thus, I wondered if your original offer, in your letter of February 10th, is still available?...to have the entire file copied, in Frederick, without my coming down. If this is OK with you, please let me know whether you want a check (deposit) "up front" or the full payment for copying & postage after the records are duplicated.

I am enclosing a list, that I scribbled, of the files that I currently have for both George (G) and Jeanne (J)...a total of about 1 1/2 inches.

I do hope that I get to meet you some time...though I feel that I "know" you from your interviews in various JFK & MLK films...your letters & our phone conversation.

Best wishes,

Peggy
