Dear Mr. Weisberg:

I have been informed by Dick Bernabei that you are interested in certain material which I possess in reference to CE 399. It is my understanding that you desire this material for possible use in your suit against the government.

Because I greatly admire the work you have done on the case and because I long for the day when we will know the truth about the assassination, I am giving you "carte blanche" to use my information in any way you deem reasonable. I would be more than willing to provide any assistance with your suit.

I am enclosing the originals of three letters which pertain to the fragment lost from the base of 399. The two letters from the Archives bear directly on the matter while the one from Hoover is slightly related. You are welcome to copy these letters but please return them to me. For understandable reasons, I am requesting that my name be associated with any materials of mine you should happen to use. I have no doubts that you will honor my requests.

Best of luck with your suit. Let me know if I may be of any further assistance.

Sincerely,

Howard Roffman

P.S. In re-reading Mr. Bernabei's letter I see that you may not be able to credit my information to me at the trial. This is perfectly all right. I just would like credit for the material if you should publish it.

Dear Mr. Roffman:

This is in reply to your letter of July 17, 1969.

As you may recall, you told Mr. Johnson of our staff when you were here that you had information from Professor Josiah Thompson that a portion of the bullet which is Commission Exhibit 399 fell off this bullet while it was being photographed. This portion consisted of a single, tiny flake of lead which fell from the base of the bullet onto a table while the bullet was being photographed in January 1967. The flake has been retained by the National Archives.

Sincerely,

A handwritten signature in cursive script that reads "Herbert E. Angel".
