

Dear Howard,

4/30/75

While slowly I'm recovering my stamina is not great. Glad to get your fine letter to Rhoads and your note.

I have what is supposed to be but can be the complete spectro and NAAs. We are not satisfied, will be in court (without me) Friday for a calendar hearing, have asked for written assurances that we have been given 100% and not received them, so the future is uncertain. We plan to use discovery if necessary. The only carbon I can think of is of a long memo I'm doing for JL. If I have no spare copy I'll lend it to you.

I have the 1/22/64 session. You'll want that. Ditto Memo of Transfer.

I appreciate your offer to promote my work but when by radio in particular the time is often too short. Push your own with our blessing and hopes.

I got a message to WFIL. If you don't hear, let me know. The Dallas station (one of largest) will call you another time. And I think I've arranged from WSM, Memphis, to do it with you. But that is a midday program.

I had an unrevised draft of a sheep-and-goats speech for the NYU student bar symposium but was so sick Lesar read it for me. I don't think you want to take time for it now. I didn't lay 'em all out but I made a good start. The reception was better than I'd hoped. Several of the sponsors who were originally aghast phone to express long approval last night. (Some skunk turned the videotape off as soon as Jim started to speak. This also gave him too little light for reading.)

The reaction to my press conference with a fever of 102° was fantastic. Must have been 40 there. No print press coverage in majors but UPI radio wire and Mutual carried stories. All major local radio stations covered, including three nets' outlets. One, CBS, used around the clock first day and periodically thereafter for a total of six consecutive days! All excerpts from the single taped conference. No single crack, no single nasty question. In almost 2 hours.

I think you should consider not ducking the issue of the self-promoters in any promotion of your book. I'm not saying raise the question. I am suggesting you consider direct and uninhibited honest response to any questions/ about them.

If when you are in the library you can xerox standard criminologists texts on the requirements of a complete spectro and NAA test and the capabilities of each it would help. JL hasn't had time.

Enjoy Jaworski!

Panned summer yet?

Best,
