# "A shocker!"

The book that's causing the powers that be to re-open the Kennedy assassination investigation!

**Was Lee Harvey Oswald guilty of the assassination of President John F. Kennedy?**

"Presumed Guilty" traces and challenges the investigation from its initial organization to the construction of the final findings of the Warren Commission Report, which concluded that Lee Harvey Oswald, acting alone had assassinated President Kennedy.

As a result of over eight years of careful research every shred of evidence including all of the commission's once-secret internal memos have been examined, all of which leads the author to the conclusion that Lee Harvey Oswald was prejudged and that John F. Kennedy's murderer is still today a free man.

- Includes previously secret and unpublished photos of medical and ballistic evidence
- Every statement is substantiated by reference to public and secret Commission documents

★ **Critical Acclaim:**

"The book is a shocker... terribly engrossing reading!" —Howard Ball, author *The Warren Court's Conceptions of Democracy*

"I am truly awed and full of admiration... The book is unquestionably a major work of crucial, perhaps decisive, importance. The achievement is simply monumental!" —Sylvia Meagher, author *Accessories After the Fact*

"Meticulously written and documented... valuable new insights... especially in the ballistics and medical area." —*The Saturday Evening Post*

"The addition of some new findings... the author's clarity of style and logic of presentation... make Roffman's study more than a mere incremental addition to the voluminous literature." —*Library Journal*
