

2/12/77

Dear Paul,

Many thanks for the copy of the Gals story on the alleged Oswald note.

I enclose a copy of a letter I have written relating to it.

I have no reluctance in going out on a limb and saying you did not receive this letter.

Without any reluctance I also state it could not have been written to E. Howard Hunt. However, at that time there was a fairy tale going around that Hunt was acting Mexico City station chief when LEO was in Mexico. It is false. It was started by Ted Sculz, about whom I do have questions.

If you can add anything I'd appreciate it because this is another disinformation operation and unfortunately those in Dallas do go for them, poor Penn in particular.

I do wonder, with Penn's record, why he did not say something in 8/75 when he was among those of us who received this stuff. This is not the only other word beginning with "s" that could be giving someone lots of laughs now.

Best,
