

June 16, 1969

Mr. Paul M. Rothermel, Jr.
Hunt Oil Company
1401 Elm Street
Dallas, Texas 75202

Dear Paul:

Enclosed are some other items for your inspection. Should any interest you, please feel free to copy them. They include info on the Farewell America people and also on Jim Rose. The handwriting on the Rampatts letter of that of Steve Jaffe. Please return them when you are finished with them.

I received your letter of June 10 and the return of my files. I hope that it will be helpful to you. As for returning the favor, I would greatly appreciate any info along the lines suggested in my letter of June 5 which you could send to Harold or myself. The people mentioned in that letter are capable of causing you as much trouble as they have caused us, as all exist in that twilight zone of opportunists, agents, and trouble makers of the garden variety.

I hope to have some more information on people who should be of interest to both of us, and perhaps I will have it by the time I visit Dallas late in July. Although my plans are not certain, I expect to drive down with a photographer during the second half of July to take care of some odds and ends, look the place over, etc. It is too bad that Penn Jones has decided that Harold and myself are agents, and will be of little help, something which will make the trip less enjoyable and also more expensive. Federal cutbacks have sucked away my financial support for this summer, so I will be watching money more carefully than usual.

Please pardon this typing. I am quite tired. Best wishes.

Regards,

Gary Schoener
