Dear Paul,

Under date of 12/27/68 I sent you a letter with these two pages from Volume 19 enclosed. The marks on them were all added by me as I used the volumes.

There do seem to have been arrests made. In the case in which I am interested, there might just be a record at the sheriff's office. I have hastily marked a few of these items in red.

I am hurrying to make the outgoing mail with something else. I will write you in further detail about our this morning's conversation as soon as I can, possibly tonight or tomorrow morning. Until then, these two things: after quite some phoning, because the man, rather than being where he usually is, at home in California, was in Boston, I did reach him. He has, after a long conversation, agreed. He cannot do this until he returns because he has put it away, out of his home and out of anyone's reach, for safekeeping. He does not know how much it will cost. He does have a little familiarity with the field. Because this will require special handling, he thinks it may cost a little more than it otherwise might. His estimate is under \$500. He will get an estimate as soon as he can, with the knowledge he alone has.

More when I can.

Sincerely,

Harold Weisberg

P.S. The phone calls come to \$17.90 plus tax.
