Transcript of Ruby Note to Al Maddox

"You've known me a long time and you've known how I've struggled to make my clubs go, also Lynn has known me up to this time that I've gotten into trouble. Johnny Crank, myself and Lynn have been out to dinner many times and I'm sure they know the kind of person I am. Well, this all adds up to what I'm going to tell you, that I am being framed for the assassination, that my motive was to silence Oswald. I know you think I'm crazy but keep this note for a later date and you will then know what I'm saying here. Keep you eyes open and maybe you will notice something."

The note was read by Al Maddox on:

*"The Kennedy Assassinations:Coincidence or Conspiracy."*

The program aired July 7, 1992.

Based on Maddox's comments it appears this letter was written while Ruby was hospitalized. Ruby died at Parkland Hospital on January 3, 1967 (10:30 a.m.). "Framed for the assassination" seems to be a reference to Ruby's delusions.

Johnny Crank and Lynn ? were both members of the Liquor Control Board. Part of their job was to check liquor bottles for tax purposes.
