

This copy of a Dallas P. O. in v. report was given to me by Jim Garrison 11/19/71. He said it had been sent to him anonymously by one signing himself a former Dallas policeman, no return address. Without giving it deep thought, it seems a little too pat: Oswald aka Hidell, Jack Ruby, a former FBI agent - all this and a policeman named Hargis, too! Yet the UPI story does give it an authentic touch. I should try to get rest of it. It does break at a provocative point, presumably being all that J. G. got & retyped. I would not encourage speaking to Grant now & do not propose to whom in Dallas. This is written en route, 11/24/71 p.m. I propose attempting an official checking, if that, from what I have, is still possible.
