Dear Bill,

My knowledge of Carto and his gangs is slight. I have a small file on him, mostly a few clippings. I recall his publication of Yockey's Imperium. I believe he hoped it would be the American Mein Kampf. I may have a file on that, too. Maybe a small one on Spotlight, perhaps copy or two, one in which one of his whores attributed to me what I neither said nor believed and in some instance the exact opposite of what I'd said. I know a bit about Mark Lane, who seems to be his house counsel.

If I were to guess it would be that the Anti-Defamation League of the B'nai B'rith ~~may~~ might be the best source. I used to know rather well their Washington reps but not in the past two decades. In New York, main office, a fellow of whom I know very little, Irving Suall, was in charge. Their main interest is anti-Semites so they should have quite a bit on him.

Years ago the Washington Post gave him and his some attention. If you can get what they have in the morgue it might be of interest.

When you are here you can borrow or copy the small file I have in my office and I'll search elsewhere if you'd like.

Please excuse my haste. Bedtime and I'd like to package your books and be able to mail them in the morning so you can have them sooner.

Best wishes,

He cold

P.S. This is important...what do you know about
Willis Carto and his organizations?
