

Dear Harold.

Glad you received my note and clipping
A-OK. I have a lot of correspondence from "Jock"
and his Pres. Asst Larry O'Brien (who is a cousin of
mine) and have always believed he was a victim of
a plot that was covered up. I find there are always
"forces" that surround our Presidents which insulate him
and his activities from those who elect him - and which
can destroy him - if they can't control him! I've known
Ron for 20 years and actively supported him - now I
can't get a call or letter to him direct? Good luck

Dear Larry,

Thanks for your letter. Glad you found WHITENASH worthwhile. There are three more in that series and Post Mortem, the last I did.

You say that you were on a USAF general's staff when JFK was assassinated. Where? Was there any alert of any kind? I gather not if they let most people go home because no work was being done.

Reagan and Co. are also doing all they can to gut and frustrate the Freedom of Information Act under which hundreds of thousands of once-secret pages of official records have been forced into disclosure. You might write your Senators and Congressmen asking that they leave the Act entirely alone, not to amend it in any way.

I wish I knew whether Larry O'Brien knows anything not known and that if he did he would be willing to talk. Which I doubt on all counts.

He has resigned from the basketball assn.

Best wishes,

Dear Harold!

I have finally finished reading "WHITWASH"

and read many pages over again - but it changes the mind... and I
abused me at - again. I was on duty ^{USAF command} that day in November when
the killing took place... we met most of the people here because
we could not get any work out of them - in that terrible moment
I was on the General's staff and it was mind boggling! I watched TV
around the clock... I remember seeing the puff of smoke from the
parking lot - then they stopped showing it - then I saw and heard
a report and I asked "what are you being fed for?" - do you know
I don't know" - then Peeling shot him (the anti climber). But that
that was omitted from later showing (no news). Then the minute
gates changed - and one by one - the witnesses began to die -
under strange circumstances? From your careful and detailed
revelation of actual happenings it would appear that at least
to be a cover-up! And it occurs the hell out of me!

On fast forward - politics scares me! One

know and supported Ronnie Reagan in every way and did not want
and sacrificed much to help him - then the Commission into the White
House... because I believe in him - and what I thought he could do
would do. Four years ago I left my Manager position with Fallon
International Corp/DCS in response to many calls from the White House to
continue helping him in his Administration, THEN after I moved from
West Lake Village Calif back to my hometown in Texas - the cable stopped
and no one replied to mine. (My friend and Ron's dog, Moby Dick, left his
free. And got them) So - you can see I really only work one way as
pardon! THAT was 2 yrs ago! My cousin Jerry O'Brien is head of
NBA & Basketball Assoc. now - I no longer work with him - but you would
find him that way - if you understand? Appreciate you finding the papers
and sending it - as a valuable resource against what is being done
in regard to 1316 BRIGHTON (the rest of person's name will work with US?) Good luck
and please your and yours.

Dear Larry Schaeffer,

Sorry, I have no pipeline to Reagan or any of those around him.

I don't think that reaching him would do any good anyway.

Any president would turn the matter over to the FBI, and you know what would happen then.

I don't know if he be willing to get interested in any way, but I'd like to be able to talk to Larry O'Brien.

With influential help, it is now possible to end the official story of the JFK assassination.

That is not the same as solving it, but I believe it is the only way that a start can be made.

Sorry I couldn't respond sooner.

Best wishes,
