Dear Mr. Weisberg,

Thank-you for your letter, and for the information about your publications. I am sorry to hear about your ailing health. Hope things can get better for you there, or at least be less painful. Thanks also for telling me a little bit about your motivations for pursuing the truth in the assassination of President Kennedy. I am not a David Lifton or a Mark Lane; however, I have researched Kennedy's Assassination since 1980, just as a hobby. I want to know about this act that our government claims has been proven beyond doubt. I don't care as much about who killed Kennedy as much as why he was killed. Who are these people who control our country and how did they get to obtain and retain such power all these years? Yes, I want to know that, because these people make the world that I am growing up in, a world that my children will grow up in. And, I am not about to leave the future of Americans to that type of government who creates such a world.

So, please find enclosed a check for \$15.00 to cover the cost of ordering one copy of your publication entitled: POST MORTEM. My address is listed above.

Your work as an intelligence analyst, investigative reporter, and writer make you, as one magazine described "the dean of assassination researchers." I read your comments on the JFK movie. I agree with you. The real Jim Garrison was not a hero, and Stone's fictional use of the "Prouty-like" character played by Donald Sutherland undermines the credibility of the film. Now, how will we find the truth? Is it even meant to be found? I am curious, Mr. Weisberg, with all of your work and dedication, what would you still like to know about the JFK Assassination and would it be something that I, who was only five when JFK was killed, could pursue?

Thank-you for sending the book, and for your letter(s) and dedication to the truth.

Sincerely,

Michael Simko

Dear Michael Ditzko,

There are more questions than we can answer honestly or responsibly. Alas!

Unless we know who killed JFK how can we know why? We all want to know why but because there never was any official investigation, there are no leads to follow and this little possibility of learning who. Without knowing who there can be only conjectural answer to the why.

This also means that there is little possibility of learning the truth.

On the basis of what I know I think the official intentions included that we not be able to learn the truth.

You ask what I would like to know about the assassination.

Who did it.

Thanks for the SASE and best wishes,
