Dear Mr. WEISBERG,

I am in receipt of your letter from 5/25/92.
Certainly it was no problem to help you in
receiving the video tape from KLAS.

In addition I appreciate your kind comments.
For your information I had decided to focus
only on the Dallas aspect to start my investigations.
By year's end I hope to acquire this series
of documents. As I have said to friends
that I would "like to open a door without
opening ten more" in these files. Should I
go in all directions, this research would be
a total waste. That in itself would be a crime.
Of course I will copy all records I
have and all I can come into. I'll make
sure they then get into your records.
I'll consider it an honor to help you.

For your information I talked to Jim Seaville today. First I wanted to start a dialog with him in order to get a better outlook on the insider's view.

Like yourself he was very kind and gave at length to me about the overall view.

I did ask him about Marvin Buhk's reports Seaville, after all was on the scene of Tippitt's murder. He was not aware of the report at all. nor did he go to the library →

However he asked for a copy and gave me the feeling he could help clarify it.

I'll let you know the outcome!

(Your letter reached me after my conversation, but I had also noticed the extreme length of time delay between the events and reports.)

I'll start your copies on my return to my office on Monday and get the

Archie Tippitt's murder.

first batch to you.

I've also run into a group of Cragston
Carr's papers - I'll forward them also.

Once again Thank You so much
for what you and your family have
given - I hope some of us can live up
to the standards you have set.

P.S. I'm still looking for Crenshaw's paper
clippings..
